Attention! Tipover System

F = 02x

H = 01x

I = 01x

J = 01x

wall

First, approach as close as possible to the wall

Then, pass the hardware (J) through the hole of the part (05) as shown in the figure above. You will need a pencil to mark where you should drill the wall with a 3/8" drill bit to put in the hardware (I).

*press the hardware wings (I) to put in the hole that you drilled in the wall.

Hardware (I), plugged in the wall.

Connect the hardware (J) onto the wall with the hardware (H). Then fasten with the hardware (F) the hardware (J) on the part (02)
